- Nodejs
- ExpressJS
- MongoDB
- MySQL

Soft Skills

- Design Thinking
- Problem-Solving
- Strong Communication
- Attention to Details
- Adaptability

About Me

Hi, im John Patrick Trinidad, a fresh graduate of Bachelor of Science in Information Technology from First Asia Institute of Technology and Humanities.

As a passionate learner and aspiring web developer, I am driven by a love for technology and a commitment to continuous learning. I thrive in collaborative environments, bringing a problem-solving mindset and attention to detail to every project. When I'm not coding, I enjoy exploring new technologies, and participating in coding challenges.

School Experience

Year 2020-2021

Grading System

- Successfully executed a comprehensive Grading System application as the culminating project during the initial year of college, utilizing the C++ programming language.

Year 2021-2022

Hospital Management System

- Executed a sophisticated Hospital Management System as the final project in the second year, employing the C programming language.

Year 2022-2023

Order & POS System

- Accomplished the development of an e-commerce or shopping website using PHP and a concurrent Point of Sale system using React and MySQL for the third-year final project.

Year 2023-2024

Web & Mobile-Based Service Finder

- Developed a web and mobile service finder system with booking and location-based filters using the MERN stack (MongoDB, Express, React, Node.js).
